Having been tutored by "Coach" for several baseball seasons (HS and post HS), Mr. Mosser was the most influential person for me for several years. An excellent teacher of the fundamentals, and with an unmatched passion for baseball, I can still hear "gosh darn" and "golly geez" whenever we erred. We loved playing for him. "Coach" was a great guy whose approach I tried to emulate during my coaching years. Love ya "Coach" ! Rest in peace.
