Richard McHugh - November 5, 2016

John was the catcher for the Baltimore Orioles on August 3, 1963 at Yankee Stadium. This was the first MLB game I ever attended. He had one hit and knocked in a run. I remember collecting his baseball cards and seeing him at Old Timer's games in NYC. He was a good man and I remember him coaching college baseball. I will pray for him and the Orsino family.

Sheila Pignone - November 5, 2016

I remember John very well. My husband (Gary Pignone) and I (Sheila Marie) worked for Johnny back in the day, 90's I believe when we were in the music and bar business. The good ole days. Johnny and Honey were great friends and we had alot of good times back then. As time passes we lost touch and moved on with our lives, but we will always remember what a wonderful guy Johnny was. Sorry to hear of his passing and heartfelt condolences to Honey and the family. Sheila & Gary Pignone
