Oreign Group PENBALL MACHINES WILL BE SEIZED

District Attorney J. Francis Yake announced Wednesday that he is giving owners and operators of pinball machines with free game attachments until Friday evening to move their machines out of the county. At the directon of his office state motor police will begin a gount-wide cleanup Saturday,

Mr. Yake pointed out that a Superior court decision handed down in Philadelphia on Saturday declared the machines with the free same attachments are illegal and provided for the confiscation and destruction of the devices which were held to be used for gambling purposes.

Owners and operators are aware of the Philadelphia decision and will receive no special notice from the district attornev's office. Mr. Yake said. Today's announcement is to give them warning of the confiscation orders to state police for execution on Saturday morning.

The district attorney said that he has a complete list of all of the licensed and unlicensed machines in use in the county and that all will be checked. The fact that the machines are licensed and taxes have been paid upon them as amusement devices does not permit their use for gambling purposes, Mr. Yake explained.

The records of County Treasurer John W. Brehm show that taxes were paid on nearly 100 of the machines in this county in 1941. Licenses already have been paid by some of the owners for 1912.
