

## U-M Great Fishman Dies

Herman Fishman, one of the great basketball and baseball names in University of Michigan lore, died Thursday night of a heart attack.

The former captain of Michigan's pre-war cage teams was 5 1 and a member of the Detroit Pistons Advisory Council since the team came to the city.

A two-sport letterman at Michigan, he played minor league baseball, coming out of Detroit's Northern High.

Fishman will be buried from the Kaufman Funeral Home Sunday. He leaves a wife and three children. His son Steve is currently a sophomore guard on the Michigan basketball team.
